## **LETTER OF APPRECIATION**

ZAL Interiors started with an empty area and transformed it into an executive office design that is both professional and cosy for my office staff to work in!

From the inception of the project to the handover, Ms Geraldine Poh and Mr Zen Wong took effort to be on-site regularly to ensure the progress of the renovation went smoothly. Special thanks to Mr Khong Kah Hoe as he was on-site throughout the renovation period. He had attended to our request in a professional manner. He is prompt and detailed to our request before and after the renovation.

ZAL Interiors were also very responsive and responsible in providing updates. They were able to conceptualize what I was looking for, and connected the dots to bring the vision into reality.

Throughout the whole renovation process, they proved to us that not only are they able to run things in a smooth and organized manner, they also help to keep the work site neat and safe. They are also very detailed and showed that they are meticulous in their work by taking care of all major and minor aspects of the project.

I would also like to thank ZAL Interiors' team of carpenters and electricians. The quality and workmanship of the carpentry and electrical works are reflective of skilled craftsmen who are passionate in what they do. Overall, the project was well-coordinated and was generally smooth. ZAL Interior was quick to attend to some minor fixes which were readily resolved.

We are extremely pleased and more than satisfied with the end results of the project! No doubt, we are one very happy customer and would not think twice about hiring ZAL Interiors again for any future renovation works!

Yours faithfully

Martin Habisreitinger  
Director Airfreight, Singapore and Malaysia
