Testimonial – ZAL Interiors

We had the pleasure working with ZAL Interiors on one renovation project involving professional services which includes design consultancy, project management; from inception to planning, from blueprints to finishing touches.

During the entire process, they had no hesitation in making trips to our office and worked patiently with us through several adjustments and revisions to our plan. Their visual design capability was very helpful as they provided three dimensional artist depiction of all the spaces. This made our decision on the outfit of the space much easier. The progress of the renovation works was on time with their estimates and we were updated weekly in an on-site meeting.

Our office was completed to our satisfaction and today we are enjoying our new workspace and premises. We had a positive experience with the team which was responsive and easily accessible. We have no qualms giving them this commendation for their services.

Our thanks to ZAL Interiors for a job well done and a successful project.

Yours sincerely,

Capt. Yeow Kok Kean
Executive Director
